

AMMAR AHMAD

MERN STACK DEVELOPER

EXPERIENCE

WattleSol (2024-Oct-2024)

As a Full Time MERN Stack Developer at WattleSol (2023-2024), I developed the **PGI** Management System, focusing on secure, efficient web applications. My responsibilities included implementing key security features, optimizing performance, and integrating modules seamlessly. I used Git for version control, conducted code reviews, and created RESTful APIs to enhance functionality and system reliability.

Sakonnet System (2023- May-2024)

At Sakonnet System, I develop trading bots and the **Parim** security management system, building web applications with MongoDB, Express, React, and Node.js. I design scalable backends, responsive UIs, and optimize performance using Prisma, Next.js, Redis, cron jobs, and WebSockets for seamless integration.

Ahmad Software and Technologies-Qatar (2021-December-2022)

As a Remote MERN Stack Developer on **NFTYART**, I built web applications using MongoDB, Express, React, and Node.js. I collaborated on feature development, optimized performance, and ensured seamless integration. My responsibilities included Git version control, code reviews, and creating RESTful APIs for enhanced functionality and efficiency.

About Me

I am a motivated Full Stack Developer with 4+ years of experience in MERN Stack, known for creative thinking, problem-solving, and teamwork. I have built 10+ projects and am eager to apply my skills in a dynamic environment.
